Summary

I am a passionate and dedicated MERN Stack Developer, eager to contribute my skills in building dynamic and responsive web applications. As a fresher, I am keen to learn, grow, and solve challenging problems in the tech industry. I am also a practicing Muslim and value integrity, dedication, and responsibility in my personal and professional life.

Education

B.Sc Engineering in Computer Science And Engineering (CSE)

2020 - Present

Pabna University of Science and Technology (PUST), Pabna, Rajshahi

Higher Secondary Certificate (HSC)

2017-2019

Govt. Shahid Bulbul College, Pabna, Rajshahi

Skills

• **Programming Languages:** JavaScript, TypeScript, C, C++

• Frontend: React.js, Next.Js,Redux

• Backend: Node.js, Express.js

• Database: MongoDB

• Tools: Git, npm, Postman, VS Code

• Interpersonal Skills: Communication, Problem-Solving

Projects

ForumHub Application

13/1/2025 - 20/1/2025

- Built a responsive Forum web application using the MERN stack.
- Implemented user authentication with JWT for secure login.
- Users can create, read, and delete (CRUD) their own posts and threads.
- Users can engage in discussions by commenting on posts, upvoting or downvoting content.
- **Technologies:** React.js, TailwindCSS, Node.js, Express.js, MongoDB.
- GitHub Link | Live Link

TalkyTime (A Realtime Chat App)

3/1/2025 - 23/1/2025

- Built a realtime chat application using WebSocket for instant messaging.
- Implemented user authentication and chat room creation for secure communication.

- Added features like typing indicators, message history, and online/offline status.
- Technologies: React.js, ReduxToolkit, Node.js, Express.JS, Socket.IO, MongoDB, MaterialUI.
- GitHub Link | Live Link

Home Repair Services

7/12/2024 - 14/12/2024

- Implemented secure user authentication with JWT for logged-in users.
- Users can add new service requests and view detailed descriptions of available services.
- Users can perform Create, Read, Update, and Delete (CRUD) operations on their services.
- Technologies: React.js, Context API, Node.js, Express.JS, MongoDB, TailwindCSS.
- GitHub Link | Live Link

Gadget Heaven

19/12/2024 - 29/12/2024

- Developed an e-commerce site with product listing, cart, and payment integration.
- Sellers can create, read, update, and delete (CRUD) product listings.
- Users can browse products by category, search for specific items, and manage their cart.
- **Technologies:** React.js, TailwindCSS, ReduxToolkit, Node.js, Express.js, MongoDB.
- GitHub Link | Live Link

Hobbies

- Coding and exploring new web technologies.
- Reading books on technology and personal development.
